- Configurable standard or dynamic directional indicator
- Aluminium body construction with epoxy encapsulated electronics
- Supplied with mounting kit and fixing covers for a 'clean' finish
- Fully E approved for road use
- IP67 protected
- Dual-voltage

---

## **Order code**

CR0351-5-2-AA

## Change the lamp from having a directional indicator to a warning light and choose from four flash patterns...

### Function information

Function	Wattage	LEDs	Approval(s)
Tail light	0.6w	12	ECE R7, ECE R10
Stop light	2.7w	12	ECE R7, ECE R10
Directional indicator	2.5w	12	ECE R6, ECE R10
Reverse/work	10w	26	ECE R23, ECE R10

### Wiring information

All functions are to be wired using a 12 or 24v source (+VDC), with the exception of the ground. The ground needs to be a reliable connection, such as directly to the vehicle chassis or battery connection.

Function	Cable colour
Stop light	Red
Directional indicator	Yellow
Pattern switch	Green
Tail light	Brown
Reverse/work	Blue
Ground	Black

### Approval information

The lamp holds multiple E approvals. These cover the functions of stop/tail lighting; directional indicator and reverse/work lighting, as well as electro-magnetic compatibility requirements. Further details of the ECE regulations that may apply to your vehicle or desired application are available on request.

### Dimensional information

Size: 210 (l) x 50 (h) x 20 (d) mm  
Distance between fixings: 190mm  
Cable length: 350mm
